RED CROSS CAR IS HERE

Dr. Shields of Washington
Gave Two Lectures on
First Aid to Injured
Today.

The first aid car of the American Red Cross Society arrived in this city from Concord on Tuesday afternoon. Dr. N. J. Shields of Washington in charge of the car gave two lectures to the public today, one at 10 a. m., and the other at 3 p. m. The work is carried on for the sole purpose of encouraging the instruction of individuals and the organization and training of First Aid Corps for rendering prompt and efficient first aid after accidents occurring on railroads and street cars and in shops, mines and all industrial shops. The officials in charge of such organizations and their employees, physicians, hospital attendants, school teachers, pupils and the public are welcome to visit the car and witness the demonstrations and listen to the lectures. The society has three cars in use throughout the country. The cars were given by the Pullman Company and are transported free over all railroads. One car is now in Texas and another in the northwest. Dr. Shields in conversation with a Herald man today stated that every meeting was largely attended and that the society was meeting with good results as to its work. The car in charge of Dr. Shields has been in the service nearly four years and has traveled over 200,000 miles. Tomorrow the car will be at Dover.

DR. JUNKINS HAS CLOSE CALL

Automobile Strikes His Team on Market Street, Causing Considerable Damage

Dr. William O. Junkins had a narrow escape from serious injury on Tuesday afternoon on Market street, when his carriage was struck by an automobile driven by Walter J. Scott, D. M. D. of Rutland, Vt.

At the time of the accident Dr. Junkins had driven his carriage alongside the curb near the old jail lot and was engaged in conversation with a young lad regarding some work.

The automobile came down the street and struck the carriage in the rear, lifting it up in the air and pushing the horse up on the sidewalk. As soon as he recovered from the shock Dr. Junkins alighted and an animated conversation took place between him and the driver of the automobile who came running back to see whether the physician was hurt.

The driver of the automobile acknowledged all blame of the accident, and said that it was due to the fact that he was looking down the approach to the river to see if it was where he took the bridge to cross the river to Maine.

An examination showed that the springs of the carriage as well as the running gear had been damaged to the extent of \$75 or \$100, and the fact that the carriage was not broken in two, is attributed to the fact that it was a new one. One of the side lights was also demolished and the paint badly scraped.

The mud guard and front of the automobile was somewhat battered by the collision.

This is the second accident that Dr. Junkins has figured in recently and he is congratulating himself on his escape from serious injury.

HOLLIS MEN IN CONTROL

Farrand Succeeds Jameson as
Chairman of Democratic
State Committee.

State Treasurer George B. Farrand of Fennecok was elected chairman of the Democratic State Committee Tuesday to succeed John B. Jameson of Andover who resigned. Mr. Farrand is a member of the 36th district of Merrimack county and a colleague on the committee of Senator Henry F. Hollis.

The state treasurer has not however been conspicuous as either a Hollis or administration man. His selection is expected to be satisfactory to both factions until a governor is nominated at the primary.

Clarence E. Carr of Andover, treasurer of the organization resigned. The election of a successor was postponed until the next meeting. Mr. Carr is a prominent leader of conservative democracy and was one of the opposing candidates to Senator Hollis before the legislature.

The resignation of Mr. Carr carries with it his withdrawal entirely from the committee. Mr. Jameson, however continues a member of the committee.

Three other members resigned. They were George C. Craig of Hume, representing the 6th district in Grafton county; Frank A. Barnard of Thornton of the 6th district adjoining; and former Representative Wilfred D. Herbert of Manchester, representing Ward 9 on the west side of that city which is part of the 4th district. Sidney F. Dowling of Lithuan was elected to fill the vacancy in the 6th district.

Senator John W. S. Jay, clerk of the license commission was elected committeeman to succeed Mr. Herbert. No successor was elected to the resigned members from Grafton county. The county delegation is thus reduced from nine to seven.

The elevation of Mr. Farrand to the chairmanship is considered a distinct victory for the Hollis forces. Mr. Farrand is particularly friendly in a political with Congressman Raymond B. Stevens of Landaff who will be a candidate for the nomination for senator against Governor Feltner. With Farrand at the helm and Mr. March as secretary, it is clearly demonstrated that Hollis is in the saddle in the state organization.

MEDIATION IS FLAT FAILURE

Peace Delegates Abandon Hope of Success and Conference at Niagara Falls May Close Friday Morning

Laredo, Texas, June 16.—It was reported in official circles that Francisco Villa had tendered his resignation as second chief of the Constitutional army to become governor of the state of Chihuahua, according to the state of Chihuahua, who is temporarily acting at that post. Rumors state that it is likely that Felipe Angeles, now secretary of war for the Constitutionalists will succeed Villa.

In the federal territory, but it is considered probable that the influential classes in Mexico City will persuade him to fill the post of minister of foreign affairs, now vacant with an able and conservative individual who could succeed to the presidency and make an effort to reconcile the warring elements.

If the mediation conference adjourns it will in all probability acknowledge its failure to bring the warring elements together for a solution of the internal problem, but at the same time will probably announce the solution of Mexico's internal conflict. Just what disposition will be made of the American forces at Vera Cruz, no one here is in a position to conjecture as the American delegates are not informed by Washington on matters of future policy.

The American delegates communicated with Ambassador De Cramer early in the day and started for Buffalo by automobile shortly after noon. H. Perelval Dodge, diplomatic secretary to the American delegation made public the nature of the trip. Arriving in Buffalo, they met the two Mexicans at the hotel Lafayette and conferred all the afternoon.

When the American delegates returned they telephoned Secretary Bryan. Later Mr. Lehmann had gone to Buffalo not only in the hope of arranging some practicable way of negotiating with the Constitutionalists while the mediation was in progress, but of getting names of suitable men for provisional president as well as general information about the Constitutionalists' cause.

The Mexican Constitutionalists made clear first of all that the conditions imposed by the mediators—the destruction of an armistice—was an impossible one for them to fulfill in advance of some definite agreement on a peace plan.

Under a long armistice all sorts of conditions might arise which might make it impossible for chiefs to hold their men together. A revolutionary army has for its object the sub, a definite military campaign. When it is stopped in the midst of its momentum is lost. These were Mr. Cabrera's views and they were shared by Mr. Zubaran.

Mr. Cabrera said the Constitutional army would never lay down its arms, the various chiefs would never agree to any change of present plans unless someone so prominent in the Constitutional ranks as to guarantee their forces absolute control, were elevated to the presidency.

Civil Engineer William A. Grover of Dover was here Tuesday on business.

TAX RATE HAS INCREASED

Resident of South Street Has
Tax Bills That Tell Inter-
esting Story.

The rate of taxes in this city has taken some jump since 1892 according to tax receipts shown a Herald representative (this Wednesday morning). In 1892 the sum of \$5.05 was assessed on the property and there was a discount of six cents allowed for being paid within the prescribed time. In 1896 the tax on the same property was \$3.07 and a discount of fifty-two cents was allowed. In 1913 the tax was \$27.12 and a discount of \$1.08 was allowed. The property is situated on South street.

NEW SCHEDULE.

Labor Men Meet Heads of Brewing Firms on Adjust- ment of Wages and Hours of Work.

Committees representing the Comptons, Engineers, Firemen, Bottlers and Brewery Workers' Union, were in conference today with the managers of the several brewing establishments relative to a working schedule for the coming year. The several bodies met the management at different hours as irrationally arranged.

TUTORING.

Miss Margaret L. Marston, Wellesley '16, wishes to announce that she is prepared to receive pupils in elementary, high school and college preparatory subjects in Portsmouth and vicinity. Address 176 Madison street.

LEFT ESTATE OF \$225,000

Will of Late John McIntire of York Probated on Tuesday.

John R. McIntire of York was appointed administrator of the estate of his father, John McIntire, who, at the time of his death a few months ago, was considered one of the wealthiest men in York county, at the session of probate court held at the office of Register of Probate H. R. Ayer in Biddeford on Tuesday. According to the returns made on the petition for

the appointment of an administrator, Mr. McIntire's estate is estimated at \$225,000, of which \$25,000 is real estate and the remaining \$200,000 personal.

OBSEQUES.

James C. Sheppard

The funeral of James C. Sheppard was held from the home of his parents in South Bluff today at two p. m. Rev. Israel Terry, officiating. Interment was in the family lot in charge of Undertaker O. W. Ham.

Robert S. Pace

The funeral of Robert S. Pace was held from his late home on Gosling road today at 2 p. m., Rev. Mr. Berkeley of Newington officiating. Interment was in Newington cemetery in charge of Undertaker O. W. Ham.

Thomas Malloy today reaches another milestone in life's journey.

BOY FINDS FIRE ON THE BRIDGE

Calls Workmen Who Quickly Extinguish the Blaze.

A lighted cigarette or match thrown from one of the cars of the Atlantic Shore Railway set fire to the trolley's island bridge at noon today. The fire which was confined mostly to the box work covering the water pipe line, was discovered by Andrew Deery, son of Chief Constable Patrick Deery, who reported the blaze to the construction crew at work on Newmarket street. They hurried to the bridge in the work car and made quick work of the fire with buckets and water from the river.

PROBATE MATTERS.

Wills and Inventories of Kit- tery and York People.

At a session of the probate court of York county, Me., held at Biddeford on Tuesday wills were allowed in the estates of the late Moses A. Safford of Kittery, Ambrose Card, late of Kittery. The following inventories were returned: Charles H. Holmes, late of Kittery, \$1,392.66; George W. Damon, late of Kittery, \$1,426.47; Samuel H. Linscott, late of York, \$551.33; Augustus N. Farwell, late of York, \$6,849.18; Walter C. Bragdon, late of York, \$10,499.81.

Y. M. C. A. MAKE GREAT FINISH AND WIN GAME

Morley Button Co. Played Better Ball, But Lose Out With Marden in the Box.

With two men out in the fifth and four runs needed to tie the game, the Y. M. C. A. who had been just a very poor team and not only got four runs, but five and with the exception of one pass they were all good clean hits, Harrington making a base of himself, when, with three men on bases, he walked the ball to right center for a home run, scoring four runs. The M. B. Co. however came back in their half of the fifth with a run which tied up the score and the game went an extra inning and was won by the Y. M. C. A.

It looked like a sure thing for the Morley team who scored four runs in the first inning on a combination of errors and a fine three base hit of Davis, which he stretched into a home run, when Thomas dropped the throw. They scored again in the second and third and had a lead of four runs in the fifth. McPheters went into the box for the Y. M. C. A. and he received a wicked support. The Morleys were hitting the ball, but the Young Men were booting and dropping it wherever they got the chance. Thomas was off his throwing and his wild heaves to second netted two runs. J. Marden succeeded McPheters in the fourth and he was only reached for two hits. Able getting both of these, one a fly that Timmons made great try for but just missed and another a clean single. He filled his bases in the fourth with a hit and then hitting two more, but he pulled out without allowing a score, and in the sixth he struck out Hinton and Howard. He got much better support only one of the nine errors being made back of him.

Driscoll pitched a fine game until the fifth, when the boys got to him for four singles and a home run and three more in the sixth. He got perfect support, not an error being made. McDonald, Howard and Hinton playing fine ball, Howard getting two fine throws to the plate which each time retired the runner.

The game was a great win for the boys and McPheters never letting up even when the odds were so great and he is deserving of great credit for the team he has developed.

The Game in Detail

FIRST INNING

The Y. M. C. A. were up and McPheters was awarded a pass for walking. He was sacrificed to second by Mulholland, Driscoll to Paul. Timmons was out on strikes. Butler beat out an infield hit along the first base line and McPheters advanced to third. Butler stole second and a wild pitch scored McPheters and placed Butler on third, but Marden rolled on to Driscoll and was retired. One run.

Able started with a gift when Harrington booted his grounder. McPheters assisted him to second by throwing low to Brackett. McDonald tried to McPheters. Pruet was thrown out. First, McPheters to Brackett. Able moving up to second from where he scored on a short passed ball. Hinton

was hit in the back and reached third when Thomas threw away over Harrington's head to get him. Stealing Howard tried to center and Mulholland after misplaying it, dropped the ball and Hinton singled home. Howard going to second. Ned Paul met one to his right and it went well into the outfield, a fine throw by Mulholland and a relay by Marden was in Thomas' hands in time to get him at the plate, but Thomas dropped the ball and two runs were scored. Marden tried to batter. Four runs.

SECOND INNING

Harrington singled to left, went to second on Davis' grounder to Hinton who retired him at first. Brackett rushed up a high foul fly that Thomas made a good catch of and Harrington made third on the throw but Thomas tried to Marden.

McPheters batted a ball off Grant's head into the bleachers and Steve was given a walk to first. A wild throw of Thomas to second placed him on third and he scored on a wild pitch. Driscoll struck out. Able drew a pass, stole second, but was retired at third, on McDonald's grounder to Harrington. Pruet was out. Marden to Brackett. One run.

THIRD INNING

The Young Men were out in order. McPheters on a fly to Hinton went back of short. Mulholland to McDonald and Timmons fanned.

Hinton struck out. Howard rolled one to Marden who threw low to first. Paul singled in center and Mulholland fumbled long enough for Howard to score from second. Marden singled to center. Grant struck out and Driscoll was thrown out by McPheters. One run.

FOURTH INNING

Butler singled over second, he stole second. T. Marden tried to Hinton. Harrington singled to left and Butler was thrown out at the plate by Howard while attempting to score. Harrington going around to third on the play. Davis beat out a roller to first and Harrington scored. Brackett retired the side to Paul. One run.

J. Marden here took McPheters' place who went to center, displacing Mulholland. Able the first man up, pushed out a Texas leaguer, which Thomas made a good try for, but did not get. McDonald struck out. Pruet and Hinton were both hit filling the bases, but Marden tightened up and struck out Howard and forced Paul to fly to T. Marden.

FIFTH INNING

Thomas was thrown out by McDonald. McPheters struck out and the crowd began to leave, for with two out and a four run lead it looked impossible. Marden, however, waited and walked. Timmons singled over second. Butler singled to left and J. Marden scored. T. Marden singled through third and the bases were filled and everybody was on their toes. Har-

SAVE THIS COUPON

THE HERALD No. 34

American Flag Coupon

Present six (6) of these coupons consecutively numbered at the office of The Herald, with fifty-nine (59) cents cash, and get this beautiful flag, size 4 feet by 6 feet, with sewed stripes, guaranteed fast colors.

Realizing the need of every family in Portsmouth and vicinity for an American flag to display on patriotic holidays, we have arranged to supply a limited number to our readers at a ridiculously small cost. All you need do is to clip six (6) of the above coupons consecutively numbered and present them at The Herald office with fifty-nine (59) cents in cash and the flag is yours. Ten cents extra for mailing & not called for.

Harrington walked a long hit between right and center that came off an automobile wheel and he circled the bases with three runners ahead of him. Davis got the hit and singled through third, but he was thrown out stealing second. Five runs.

Marden the first man rolled an easy one to J. Marden. Grant raised a fly over second that Harrington dropped. The side second. Driscoll tried to Timmons who held Grant at second. Able singled over short and Grant scored the tying run. McDonald retiring the side on a fly to Timmons. One run.

SIXTH INNING

Brackett was thrown out by McDonald. Thomas singled over second, and he went to third on McPheters' single in center. "Mac" stole second and with two men on Marden came across with a single to left. Thomas scoring, and McPheters being thrown out at the plate by Howard. Timmons struck out one run.

Pruet was thrown in by T. Marden and Hinton and Howard fanned, ending the most exciting game of the season.

RAILROADS UNDERPAID.

Mr. Ralph Peters, chairman of the Committee on Railway Mail Pay, representing 241 railroads carrying mails on over 215,000 miles of line, authorized the following statement:

"The Rules Committee of the House of Representatives has, I am informed, adopted a recommendation that the so-called 'Moon Bill' follow the Sundry Civil Appropriation Bill now being considered by the House. The underlying principle of the Moon Bill is to reduce the pay of the railroads for carrying the mails by about \$10,000,000."

"Congress sometime ago appointed a Joint Committee of which former Senator Jonathan Bourne, Jr., of Oregon, is the chairman, to investigate the whole subject of railway mail pay and recommend to Congress the proper method which should be adopted. That Commission has conducted a most exhaustive investigation but has not yet reported, although it intends shortly to do so."

"The railroads have, I believe, proved conclusively to the Committee that they were certainly not overpaid for carrying mails, but were, as we see it, underpaid by at least \$15,000,000 annually. In making his closing argument on the Five Per Cent. Advance Rate Case, Mr. Brandeis, as his special counsel, advised the Interstate Commerce Commission that to him it seemed clear that the railway mail service was unremunerative to the railroads."

"At the instigation of the Post Office Department, which has, we feel, been grossly unfair in all questions relating to compensating the railroads for carrying the increased burden of the parcel post, and before the Joint Congressional Committee has rendered its report, Congressman Moon has intro-

duced the bill which rectifies the methods of paying the railroads in such a manner as to reduce by about 20 per cent. the compensation now paid to the railroads.

"This proceeding not only seems highly inappropriate in advance of the recommendation of the Congressional Committee, but in itself proposes an imposition upon the railroads which is without warrant and is in the highest degree unjust. It cannot be that such a plan will have the support of the American people when the people realize what the plan actually means."

MINNESOTA'S TRUST FUND.

State Has Accumulated Fund of Over Thirty Millions.

By conserving its natural resources, preserving its gifts from the nation, husbanding its revenues and income from land sales and from timber and iron ore royalties, and by holding intact all accretions to the capital thus acquired and intended to be used in furtherance of educational and other public purposes, Minnesota has accumulated a trust fund amounting to \$30,224,418, a sum exceeding it is said, that of the combined funds of similar character in twenty out of the twenty-five states east of the Mississippi river. This has not been accomplished, of course, without considerable self-denial and self-sacrifice on the part of Minnesota's people. By throwing the resources of their State wide open to all comers, as their neighbors did very largely, they could have induced earlier and greater exploitation of those resources, calling it development, and with this a greater flow of investment capital and immigration; but they were wise, we think, to let their State take on its growth in a more conservative way.

The State had advantages enough to offer home-suckers and investors without granting them prizes to the impairment of its permanent capital; and one of the results of its indisposition to dispossess itself in order to provide more for the farmer than perhaps he was entitled to, is its ownership today of lands granted by the government which yield an annual income to its treasury of \$1,200,000.

All such income, all income derived from its property in trust and from its trust fund goes toward the maintenance of its university, its other State schools, to education in general, and to bridge and road improvements. The trust fund can never be diverted from such uses and can never be diminished. It is the existence of this fund that makes possible a statement of such import as that the educational institutions of Minnesota "are unique in presenting a complete system of secular school instruction in which tuition is absolutely free of charges, from A B C to the doctorate of philosophy." This is something to be justly proud of, and wherever there is opportunity for any State or any province in any country now having the foundations of government and society to secure for patrimony for the schools large tracts of undeveloped territory, the example of Minnesota may well be potent. Take long rather than short views of the problem. Let the increment of value that follows growth of population come to the State and to the schools rather than to speculators in lands. If money is needed immediately derive it from leases and rentals and not from sales. If mineral wealth is discovered retain title but permit mining on a royalty basis. Thus may a State or province endow its own educational institutions, lessen the burden of direct taxation, and avoid repetitions over waste of capital entrusted to it by the central government.

WIFE HIRES LAWYER TO DEFEND DOUGLAS

Newark, N. J., June 15. Bail was fixed today in the case of Kenneth H. Douglas. He was held in \$1500 on a charge of perjury and \$1500 on a charge of obtaining goods under false pretenses. The prisoner did not seem to be greatly disturbed.

John V. Laddie represented Douglas as counsel, having been procured by the Newark wife of the prisoner. Asked if Mrs. Douglas had visited her husband since his arrest, in Boston and return to this city, Laddie replied that she had not, and added: "She came to me and asked me to defend her husband, stating that she, as his wife, considered it her duty to stand by him in his present hour of need."

KITTERY POINT

Items of Interest from the Harbor Town.

Clicquot Club
Pronounced Klee-O
GINGER ALE

Leaping, Bubbling, Laughing
Clicquot Drives Heat
and Thirst Away

Fresh spring water charged with carbonic acid gas, our own extract of finest ginger root, pure juice of lemons and limes, syrup made from cane sugar, that is Clicquot Club Ginger Ale. It's good any time, anywhere and safe and beneficial when you're overheated or exhausted. Two glasses to the bottle.

In a 10¢ bottle of Clicquot Club Ginger Ale you get enough of the finest quality ginger ale to fill two of the 5¢ bottles that contain something called ginger ale. We can't put Clicquot Club Quality into 5¢ bottles. The cost of handling and washing and filling the bottles runs too high and we believe in clean bottles. You don't pay any more for Clicquot but you do get ginger ale.

Sold by Good Grocers and Druggists
Other Clicquot Flavors: Birch Beer, Root Beer, Saranapple, Lemon Sour and Orange Phosphate

BY HOE

CONGRESS TO REMAIN IN SESSION TO PASS PRESIDENT'S BILLS

Washington, June 16.—With virtually all hope for an early adjournment of Congress abandoned, Democrats in the Senate prepared today to push to completion the Administration's program of antitrust legislation. This course was planned as the result of a conference between President Wilson and leaders among the Senate Democrats at the White

House last night, at which the legislation which the President wants enacted before adjournment of Congress was discussed. The only measure on the program, the enactment of which will be insisted upon, are the antitrust bills already passed by the House or similar measures. It was generally agreed at the conference that Congress should

be kept in session until the antitrust program is put through, despite the anxiety in Congress for an early adjournment.

That rapid progress is being made on the antitrust bills now under consideration by Senate committees was the report made to the President by the Democratic leaders, and it was generally conceded by the conferees that there should be little difficulty in getting these measures reported to the Senate and passed by that body.

President Wilson's declaration that, despite what he characterized as a deliberate campaign by certain interests for an adjournment of Congress and postponement of the Administration's trust legislation program, he would use every influence at his command to get the pending bills through the Senate at this session, continued today to be the subject of widespread comment in Congress.

SEVEN DIE IN A FIRETRAP

Milford, Mass., June 16.—Seven Armenians were burned to death, and twenty seriously injured when eighty men were trapped in a burning Armenian lodging house early today. Two of those injured are expected to die.

The bodies were taken from the upper floors of the four and a half story brick and wooden building. In addition to the twenty men taken to a hospital suffering from burns or from injuries received in jumping from windows, thirty sustained minor burns.

The interior of the building was burned out. The fire, the cause of which has not been determined, started in the dining hall on the ground floor of the structure, which was at the corner of West and Cherry streets. When the firemen arrived flames were shooting through all four floors. Escape by the two narrow stairways was cut off and the only means of getting out of the building was by jumping from the windows. There was a scene of wild excitement as the fear-crazed foreigners attempted to save their lives.

The building, erected more than fifty years ago, formerly was used as a shoe factory and its timbers were impregnated with oil, which added in the rapid spread of the flames. The heat was so intense that the flames were unable to enter and the only way they could add the occupants was by spreading nets and blankets to catch them as they leaped from the windows. The number of dead could not be determined until the fire had been brought under control after a two-hour fight and the charred bodies were recovered. All the doctors and ambulances in the town were pressed into service. Those most seriously hurt were taken to a hospital and others, after having their wounds dressed, were sheltered in nearby houses.

The victims were laborers and molders employed at a manufacturing plant in Hopkinton. None of them had families.

The building was owned by Peter Popaljan. The financial loss is small.

ROOSTERS GO ON DANGEROUS LIST

Malden, June 16.—Shortly after 5 this morning Elizabeth Smith, 3-year-old daughter of Mr. and Mrs. George Smith of Wentworth street, was attacked by a large white Plymouth Rock rooster, owned by her father and received painful injuries about the face. The bird flew at the child and fastened his bill in the bridge of her nose directly between the eyes. Struggling hard, the child threw him off, but he immediately grasped her nose at the tip.

George Evans, an uncle of the girl, hearing her screams rushed from the house to determine the cause of her cries. As he ran toward the rooster he did not notice a large plank, which lay directly in his path, and stumbled over it, dislocating his left shoulder and sustaining a bad fracture of the right forearm.

The rooster, noticing the man lying upon the ground, ceased his attack at

FARRAND HEADS THE DEMOCRATIC STATE COMMITTEE

Concord, June 16.—At a meeting of the Democratic state committee here today the resignations were received and accepted of John B. Jameson of Andover, chairman, and Clarence E. Carr of Andover, treasurer of the state committee. State Treasurer George E. Farrand of Penacook was elected to succeed Mr. Jameson, and the filling of the other office was postponed to a future meeting of the committee.

Three members of the committee, George C. Craig of Rumney, Frank A. Barnard of Thornton and Winfred D. Robert of Manchester presented their resignations, and State Senator John W. S. Joyal was named to fill the Manchester vacancy. There was a fair attendance from all sections of the state, and several hours were spent in the discussion of the approaching campaign.

RED CROSS CAR HERE TO GIVE DEMONSTRATION

The American Red Cross demonstrating car arrived here on Tuesday afternoon and it is on a sabbath in the rear of the depot. Today there will be classes at ten and three o'clock in first aid to the injured and those in charge of the work are very anxious to have people interested present at the demonstration.

They wish particularly to have police officers, firemen, railroad men and the men from the various industries and factories come to the instruction.

for it is these men who are more liable to have occasion for the knowledge as they are more likely to be present at accidents.

Station Agent Grant has a class of railroad men who will be present at the forenoon session and many of the police officers and firemen will be present at the afternoon class.

The Red Cross Society has the car equipped and is sending it about the country instructing all who can acquire one in Massachusetts and this intent continued until his death.

This purpose was manifested not only by statements made publicly and privately that he had left Portsmouth permanently and proposed to remove his practice and business to Massachusetts, but by significant acts such as his resignation as judge of the municipal court of Portsmouth and as a member of the New Hampshire Bar association and the transfer of his law office from Portsmouth.

S. W. EMERY DECLARED A RESIDENT OF BAY STATE

The full bench of the Massachusetts supreme court Tuesday decided that the Suffolk county probate court has jurisdiction of the will of Samuel W. Emery, formerly counsel for the Massachusetts Northeastern Railway, and that although Mr. Emery died at Portsmouth, N. H., in November, 1912, his domicile at the time was in Boston.

The court held that in 1905 Mr. Emery former a fixed intention to give up his domicile in Portsmouth and to

on the child and attacked him. Flying at the man's face the bird was able to scratch fearfully as Mr. Evans was temporarily unable to offer any resistance. Finally, however, he succeeded in overpowering the rooster and looked him up. Dr. C. C. McCarthy of Malden treated his injuries.

At first it was thought that the child would lose the sight of her eye, but with the exception of painful cuts about the head and face her injuries are not serious.

GRADUATION CLASS HOLD RECEPTION

The graduation class of the Training School held a reception to their friends at the Farragut school on Tuesday evening and it was a very pretty affair.

The lower rooms of the school had been arranged for the reception and there were present Principal Mae Muldrain and the other teachers, who assisted in receiving and a large gathering of relatives and friends and the pupils' parents were present.

Refreshments were served and the graduates were highly complimentary on their successful course and given the good wishes of all present for their future success in their chosen profession.

HAMLIN WILL BE VICE GOVERNOR

Washington, June 16.—Thomas D. Jones of Chicago, nominated yesterday for the six-year term on the Federal Reserve Board, was said in official circles today to be the President's choice for governor of the Board. Charles S. Hamlin of Boston was expected to be made vice governor. Reports continue that confirmation of some of the nominees will be opposed

OBSEQUIES

Mrs. Martha A. Marston
Funeral services of Mrs. Martha A. Marston were held at the residence of Mr. Horace Leavitt on Walnut avenue North Hampton, Tuesday afternoon at 2 o'clock Rev. C. H. Lathrop pastor of the Congregational church officiating. The church quartette sang Isaac Knolly Light and Abide With Me. The deceased was A. S. Marston, J. W. Whelan, Harry C. Marston and Walter Pansley. Interment was in the Central cemetery in charge of H. W. Nelsonson.

RESIGNS AS CAPTAIN OF THE VANITE

New York, June 16.—William Denice of cup class yacht Vanite, today tendered his resignation as sailing master of the Vanite. Differences over the handling of the Vanite in the recent races is said to be the cause of the resignation of Capt. Denice. It is said Capt. Harry Haff will succeed Capt. Denice at the wheel of Vanite.

CHANGE IN SHAMROCK IV.

Understood That About Four Tons of Lead is to Be Removed From Challenger's Keel.

Hamport, Mass., June 16.—It is understood that Charles E. Nicholson, designer of the Shamrock IV, proposes to remove about four tons of lead from the keel of the new challenger for the America Cup. He thinks this will materially increase the speed of the yacht.

MEDIATORS WILL NOT RECEIVE DELEGATES

Will Not Give In to Carranza—Must
Stop Fighting to Be Recognized.

Washington, June 16. Temporary suspension of formal negotiations at Niagara Falls among the mediators and the American and Mexican delegates, during the absence of the American Minister, gave President Wilson and Sec. Bryan additional time to study for completion of men to be suggested for the provisional presidency in Mexico. Government officials are said to have experienced some difficulty in getting names of officials through Constitutionalists' agents in Washington.

Changes that Carranza might become a party to the present negotiations apparently were dissipated by the dispatch of the ex-minister to the Constitutionalists' chief. They said Carranza they feared he had not fully considered their communication containing a request for an armistice with Huerta.

Men in the confidence of Carranza declared he had "deliberately" considered the proposal, that he would not agree to a truce, and that apparently the door to any further correspondence between the mediators and the revolutionary leader was closed. They contended that under the circumstances Carranza would not send any representatives to Niagara Falls, even in a modified capacity.

Rebels Receiving Consideration.

That development, not entirely unexpected, caused little change in the general situation, so far as the United States is concerned. However, the insistence of the American delegates that a Constitutionalists' agent be named for provisional President was pointed out as showing that the mediators would not be received by the rebels of the northern faction were a truce not considered.

The mediators have declared they were carefully weighing the Constitutionalists' claims. Agents of the revolutionists' Junta were surprised that the mediators refused direct to Carranza instead of transmitting their telegram to Rafael Zedillo through whom all previous correspondence has passed. Men in close touch with the Constitutionalists' agency declared that the ill-fortune Carranza's troops encountered in their investment of Zacatecas speedily would be reversed with the arrival of reinforcements hurrying from the North.

Press dispatches from Mexico City stating that an extraordinary session of the House probably would be called by Huerta, were given to the dispatch. It generally was supposed the subject of the extra session would relate to Huerta's attitude, which recently has been outlined by his delegates at Niagara Falls.

STATUS NOT CHANGED

Constitutionalists Hold That Any Plan for Peaceful Settlement Must Have Their Approval.

San Antonio, Mex., June 16.—Constitutionalists' leaders here declare that the signing of a protocol at Niagara Falls had not changed the status of affairs in Mexico, holding that any peaceful settlement must have the approval and assistance of the Constitutionalists, as the delegates that a Constitutionalists' agent be named for provisional President was pointed out as showing that the mediators would not be received by the rebels of the northern faction were a truce not considered.

Announcement that the Carranza delegates would not be received by the mediators unless an armistice is agreed to, has not caused the slightest

lessening of military activity. It repeatedly has been stated that the only settlement with Huerta and his party must be by force of arms. Word has been received here that Zedillo was closely investing Oaxaca and that he had destroyed all telegraph and railroad communication with that city.

ITCHING ECZEMA IS DRIED RIGHT UP WITH SULPHUR

Use Like Cold Cream to Subdue Irritation and Clear the Skin

Constant or intermittent irritation producing itching and red, angry eczema patches on the skin is readily relieved with bold-sulphur cream. The moment it is applied the itching stops and the healing begins, says a noted dermatologist.

It effects such prompt relief even in aggravated eczema that it is a never-ending source of amazement to physicians.

For many years bold-sulphur cream has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasite-destroying properties. It is not only parasiticidal but also antipruritic and antiseptic and nothing has ever been found to take its place in overcoming irritable and inflammatory affections of the skin. While not always establishing a permanent cure, yet in every instance it instantly stops the agonizing itching; soothes the irritated and inflamed raw skin right up and it is often years later before any eczema eruptions again appear.

Those troubled should get from any pharmacist an ounce of bold-sulphur cream and apply it directly upon the affected skin like you would any ordinary cold cream. It isn't unpleasant and the prompt relief afforded is very welcome, particularly when the eczema is accompanied with itching.

GREECE AND TURKEY

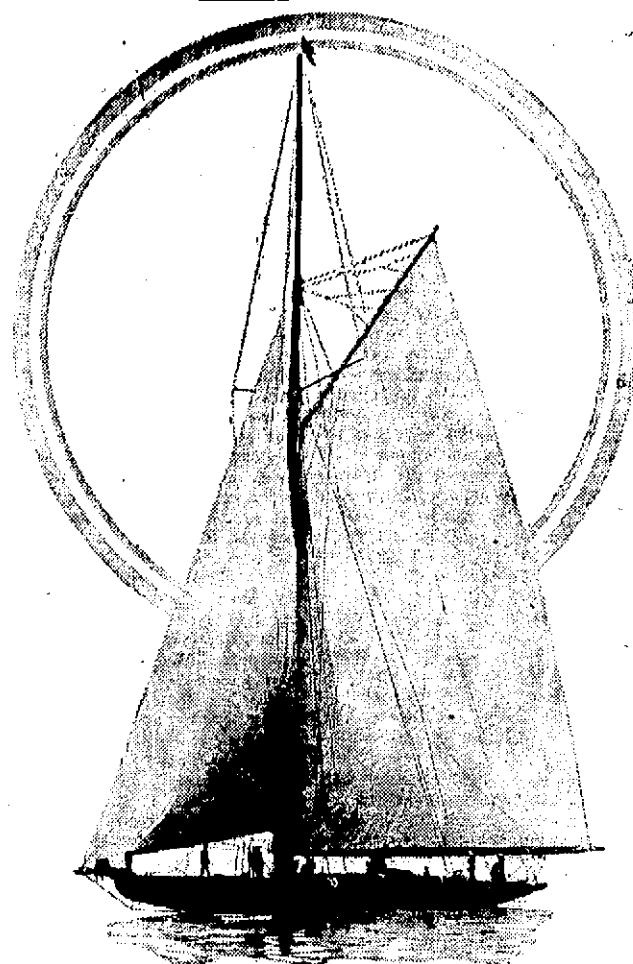

The Unsettling Causes That May Result in War.

The assault by Turkish regulars upon the Greek town of Alvalik, on the mainland of Asia Minor, opposite Mytilene, adds fuel to the flames of resentment in Athens over the treatment accorded by the Turks to natives of Greece within the restricted territory left to Turkey after the treaty of Constantinople, September 30, 1913. A specific demand of the Greek Government is for \$30,000 damages for the loss sustained by a Greek whose property was seized at Premier Venizelos informs the Chamber of Deputies, however, that the total number of refugees who have returned or are seeking opportunity of returning to their native land is about 100,000, and he estimates that the only answer Constantinople has made to his representations, is to intimate that the sufferings of the Greeks in Asia Minor are but the justified retribution for what the Greeks have already done to the Muslims in Macedonia.

Behind the charges and counter-charges of oppression undoubtedly are the desire of Turkey to regain the territory lost in the war and the desire of Greece to achieve undisputed control of the Aegean. The shrinkage of the European area under Turkish control becomes the measure of Greek defiance of her hereditary foe. Before the war Turkey had 63,100 square miles on the European side of the Dardanelles; after the compact at Constantinople and Bucharest were signed Turkey retained but 5614 square miles, comprising the Vilayet of Adrianople, Greece, on the other hand had 25,874 square miles before the war, and gained 16,910 square miles on the cessation of hostilities, so that her 41,993 square miles is nearly five times the area controlled by Turkey. It is in the confidence amounting to insolence of the reversal of position that Premier Venizelos speaks, and the nation bears him.

The territorial prescription under which Turkey claims is the result of the compulsory concessions also to Bulgaria of 8851 square miles, to Serbia of 15,241 square miles, to Montenegro of 2120 square miles; the new State of Albania, carved from the western portion of the Turkish dominion, has an area of 11,317 square miles. The total areas apportioned to each nation in the reconstruction of the Near East are therefore: Bulgaria, 43,310 square miles; Greece,

Shamrock IV., New Cup Challenger. Has Immense Spread of Canvas.

Copyright, 1914, by American Press Association.

Here is the first photo of the Shamrock IV, to reach this country. Lipton's new cup challenger recently made her maiden trip under the leadership of W. P. Burton, the famous amateur skipper, who will sail her in the race. As the picture shows, the boat has an immense spread of canvas and has a heavy enough hull to stand up under severe weather.

41,933; Serbia, 31,000; Albania, 11,317; Turkey 5614; and Montenegro, 2120. The ignominious relegation of Turkey is not counterbalanced by the retention of her holdings in Asia Minor.

Moreover Turkey in Europe had a population before the war of 6,130,290, whereas there now remains under Ottoman jurisdiction in eastern Thrace and in Constantinople but 1,500,000 persons. The gains of the other states in population at Turkey's expense have been: Bulgaria, 415,499; Serbia, 1,636,290; Greece, 1,636,000; Montenegro, 230,000. Let it be noted that Bulgaria has added 256,000 square miles, with a population of 2,860,000 to Rumania. The creation of Albania withdraws about 1,000,000 subjects from the Ottoman Empire.

Thus it will be seen that Turkey has everything to gain by recognizing the international contention with her neighbor, the arm of whose power has been lengthened to reach far beyond Salonica to the island of Thessos and the Mesta River at the new Bulgarian border. In the event of war, an embarrassment to Greece might be the hostility of Bulgaria. In the portion of that country that now intervenes between Turkey's remnant and the Greek frontier. But in any case Greece would enter the contest with a moral and physical advantage she has not heretofore enjoyed in her contests with her historic adversary and if Constantinople is advised it will seek by all means to evade rather than incur further humiliation.

CONSTRUCTIVE THRIFT.

"We must find ways and means to bring our mines, our fields, our factories and our shops through concentration of energy and practice of economy up to the highest standards of efficiency and productiveness; and most of all, we should begin to practice personal economies."—J. T. Talbert, National City Bank, New York.

If you doubt that this nation needs a new birth in thrift, consider these facts:

We spend \$5,400,000 a year for cigarettes.

We drank 70,000,000 gallons of whiskey last year.

We chew up over \$25,000,000 worth of chewing gum annually (one concern spends \$2,000,000 a year advertising his gum).

Last year the American people paid out \$30,000,000 for candy.

These figures and many more like them are the measure of what is largely popular extravagance.

We could do without a very large part of the things represented by those enormous figures, and be just as well off—yes, a great deal better off.

But it would be useless, if it were possible, to shut off such foolish expenditures suddenly unless the money so saved by individuals were put to good use either by the savers themselves or by the bank in which they deposit the money.

This brings up the point which is so often raised by persons who fail to see any economic good in saving.

They say that the spendthrift gives employment to others and that his money gets into the bank eventually even if he deposits none of it there himself.

That is all very true, but how much better it is to have the money used constructively in ways which mean sobriety, industry, home ownership, integrity, good citizenship and edu-

cation of children. Saving just for the sake of saving is not advocated. Thoughtful, purposeful saving is the thing.

Genuine, constructive thrift has an important bearing upon industrial and national progress as well as upon the material success of the individual.

Here are a few examples of what is meant by constructive thrift:

The invention of the engine burning oil as fuel instead of coal.

Intensive cultivation of land as conducted by a Maryland family that makes \$10,000 a year from 20 acres of flowers and vegetables.

The school, back yard and vacant lot gardens, which help lower the cost of living.

Applying the principles of thrift to methods of brightening by cutting out superfluous motions, as was done by F. L. Gilbreth.

The new "scientific management" of business generally, including the establishment of bureaus of standards by municipalities to save the people's money in buying supplies for public use.

The commission form of government in cities, and irrigation and other conservation projects as conducted by the Government.

ENGLAND WINS THE POLO CUP

The English Polo team took the Polo Cup, on Tuesday afternoon when they defeated the American team by a score of 4 to 3-4. It was a much better exhibition on the part of the American team, but not good enough to win a leg in the cup.

Under the terms of the gift the cup goes to the custody of the team winning it twice, and this the English team at last accomplished.

July Century

The thrifty European farmer is said to come in for high praise in an article called "Two Story Farming," by J. Russell Smith, announced for the July Century. American farmers, amateur and professional, may learn from this paper a new wrinkle in crops.

Professor Edward Alsworth Ross' much discussed series of papers on immigration reaches "Italians in America" in the July Century. It is said that the professor does not hesitate to express his opinion as to the value of Southern Italy's contribution to our citizenship.

The author of "Madame Butterfly" John Luther Long, has written a story for the July Century which is said to be filled with the delicate sentiment for which this author is justly celebrated.

Mrs. Harriet Butler, left on Wednesday for Worcester, Mass. where she will pass the summer with her daughter Mrs. W. F. Armitage.

FINLAND WIPED OFF THE OLYMPIC MAP

Paris, June 16.—Finland was wiped off the Olympic map today when the International Olympic congress adopted the German definition of an Olympic Nation, under which Finland cannot enter as a separate Nation. The opinion was expressed by some of the delegates that Finland was likely to withdraw entirely from the games rather than compete under the Russian flag.

The delegates from the United States abstained from voting on the question. France strongly pressed the German definition. England and her colonies, with the exception of South Africa, voted with Germany.

The congress adopted also a proposal by Italy, seconded by the United States, that a man who competes for one country in a series of Olympic games may never compete afterward in the games for another country. It was decided that competitors must be natives or naturalized citizens of the country they represent.

COAL RECORDS BROKEN

Anthracite Production in 1913 Was 81,718,880 Long Tons, an Increase of Nearly 1,000,000 Over Previous High Figure.

Washington, June 16.—All previous records of anthracite coal production were broken in 1913, when the output was 81,718,880 long tons, according to the figures today given out by the Geological Survey. This exceeded the highest previous output by nearly 1,000,000 tons. Last year's production was valued at \$195,481,127, compared with 75,328,855 tons valued at \$177,622,026 for 1912.

The average working time for men established a record in the anthracite region. The average was 257 days the nearest approach being in 1911, when an average of 246 working days was recorded. The average number of men employed was 175,745. The number of fatal accidents in the anthracite mines in 1913, was 618 compared with 581 in 1912.

John J. Holland of Manchester passed Tuesday at York Beach.

Potomac Arrives.

The tug Potomac arrived at 3 o'clock this afternoon and took a berth at the coal dock astern of the U. S. S. Manzan.

Goes to Norfolk.

Portsmouth lost the famous frigate Constitution, and now Newport is losing the Constellation. On Tuesday the famous ship of the war of 1812 was towed to Norfolk by the tug Uncas.

The Constellation has been a part of the historic relations of Newport and the navy so long that the Rhode Island senators and congressmen have made efforts to retain the ship in home waters. She will be replaced by the brig-

Program for Wednesday and Thursday

The Spider and Her Web—Two reel Rex drama, with Lois Weber, and Wallace Reid. The story of a beautiful woman without a heart, and the desperate means adopted by a scientist to change her life.

Aches of the Past—Two reel Reliance western drama. A gambler and his wife, driven out of the camp, find a little child. The love for the child finally causes them to see things in a different light.

The Silver Loving Cup—Two reel Imp drama, with Leah Baird. A powerful melodrama of a famous doctor, whose wife is so fond of society that she leaves him. After his little child is burned to death he gives up his work at the hospital and devotes his time to work in the slums. A silver loving cup presented to him by his associates years before, plays an important part in closing the breach between husband and wife.

Our Mutual Girl—Margaret pays a visit to her old home in Maryland. Acres of Alfalfa, and Our Largest Birds—Keystone educational comedy, split reel.

"In the Garden of Home, Sweet Home," and "Off with the Old Love, On with the New," sung by Miss Barton.

"The Perils of Pauline"—Sixth episode of the \$25,000.00 prize contest picture, in two reels, by the Pathe Players.

"Breed of the North," two reel Broncho drama; and "The Blood Test" two reel Imp. detective drama, with King Baggot. Coming Friday.

untine Boxer, built at the Portsmouth yard, now at Annapolis, as a training ship for the apprentice seamen.

Will Have to Look Her Over.

It is at present impossible to start the work necessary on the tug Potomac until the heads of the departments make a survey of the boat. No list has been sent ahead by the vessel of the department relative to the necessary overhauling and it is not known how long she will remain at the yard.

Went on Job Today.

Ralph Fletcher, of Kittery Point, recently appointed messenger in the hall division, reported for duty today.

May Get a Sea Lion.

The crew of the New Castle boat "Prowler," a new craft in the fleet from the seaside village, are commenting on the enterprise of the first mate who has gone into lobster fishing as a side line. They are at loss to know why he used so much wood in his traps and are satisfied that he intends to capture a sea lion as well as the high priced shell fish.

The Herald Hears

That the public works department today ran a sweeper over Dear street. That there is no question but it was needed.

That the people on the lower end of that highway should be made to keep it clean as far as possible.

That the street should be no dump for tin cans, rags, etc.

That one of our well known residents will not forget the trip to Manchester on Ping Day in a hurry.

That the pickpockets certainly cleaned him up in good style.

That they even took his mileage book along with his money.

That owing to the work of the light-fingered gentry he was obliged to borrow money enough to get home.

That Daniel W. Gallagher, a well known newspaperman has taken the position of publicity agent for Senator John C. Hutchins, a democratic aspirant for governor.

That the woman with a set of furs valued at \$500 don't care if we have no summer at all.

That the Langdon Hotel is in the hands of the painters.

That some people should use a sand-glass to show them when to quit the girl on the telephone line.

That the police department has been called upon to investigate a variety of crimes within the last few days.

That while some men talk of killing ten birds with one stone, there are others that could not kill an eagle with fifty red bricks.

That the lawn around city hall could be beautified with little expense and labor.

That the musical team at music hall is the best seen on the local stage in many days.

That the people who insist on airing their family troubles at a theatre should suspend for a while and pull it off in the vestibule.

That the next big Flag Day celebration in New Hampshire will be right here in the old City by the Sea.

PORTSMOUTH THEATRE PROGRAMME

For Wednesday and Thursday The Southerners—Edison drama in three parts.

This famous novel of Civil war times makes a stirring photoplay having as its great climax the entrance of Farragut in Mobile Bay. Also we see the Battle of Chickamauga. Taken on the very spot made immortal by the inspired heroism of those dark days in the history of our nation. A magnificent presentation of the thrilling incidents of the Civil war. A powerful love story laid in the unsurpassable beauty of Southern scenery, completes one of the most powerful and absorbing history dramas ever filmed. Mabel Trunnelle and Richard Tucker featured.

ACT—Davis Sisters—Singing, Talking.

Actor Finney's Finish—Essanay comedy.

Finney, a would-be actor is thrown bodily into the street. He gets a new job with a moving picture concern. His Munders will cause a great deal of laughter.

ACT—Burton and Burton—Comedy Musical Act.

The Idiot—Biograph drama.

At the death of his child the father was dominated by a lasting hate for the physician, who was unable to come to his dying boy. He plans revenge.

ATTENTION, PYTHIANS!

Next Sunday will be observed as Pythian Memorial Sunday and the members of Damon Lodge, No. 8, K. of P., are requested to meet at Pythian hall at 10 o'clock to attend service at Christ church. Members are requested to wear parade badges. All sojourning Knights are invited to join with the local lodge.

POLICE COURT.

Harold Donnell pleaded guilty to a charge of larceny in the district court today on a complaint of A. A. Webb. He paid \$10. and costs of \$5.75.

SCHOOL BOY THE VICTIM

Justin Hartford Badly Injured in Friendly Scuffle With Another Student.

In a friendly scuffle at the high school on Tuesday forenoon Justin Hartford, son of Mr. and Mrs. F. W. Hartford of Highland street, was struck over the right eye and seriously injured. The blow was accidental and the young lad was rendered unconscious. At first it was thought that he was simply dazed, but when he did not respond to treatment, Drs. Taylor and Jenkins were called and they ordered the lad to the Portsmouth Hospital.

He remained unconscious until after three o'clock, when he began to come too, and he steadily improved during the evening.

At 8.30 he was still on the dangerous list, one side of his face being affected and the physicians will not be able to tell the result of the concussion until today.

The young man who caused the accident was heart-broken over the affair. They were chums and had started fooling while coming in from recess.

The injured lad is a popular member of the Sophomore class and he has the sympathy of the entire school.

This morning the condition of young Hartford was greatly improved and it is now expected that his recovery will be rapid.

AFTER POLICEMAN'S JOB.

Peter J. McConville, formerly employed at the meat market of John Holland, has filed an application for the police force at Philadelphia, where he is now located. He recently passed the required examination and has good prospects of landing the job.

THE PAUL JONES HOUSE (Known as the old Morrison House, 43 Middle street, corner Middle and State) opens June 12th. Public dining room and private dining room for parties and tourists, teas, etc.

MRS. GERTRUDE WINN, Proprietor.

June—the month of flowers, brides and spring clothes. It's of spring clothes we'll speak. Our display was never better or bigger. Styles were never smarter! The "slim effect" in young men's suits is responsible for what we may call "distinctiveness." It takes, though, expert tailors to get the "lines" right. Stein Bloch and Kuppenheimer young men's suits are examples of the most expert tailoring. \$18.00 to \$25.00.

HENRY PEYSER & SON

Selling the Togs of the Period.

The Bride's Gift

Should be chosen with care and discrimination. My stock at present embraces an unusually large assortment of wonderfully attractive

PICTURES

Chief among which are many from the studio of Wallace Nutting. These are in all sizes and shapes suitable for framing and include his latest subjects. Nothing will prove a more welcome gift for the bride than one of these exquisite pictures. I am also showing for the first time in Portsmouth genuine imported

Chinese Embroideries

artistically made up into Serving Trays and Mirrors. Your examination is invited.
